

InNova[®] PM+™

Power Motion Wood-to-the-Floor Mechanism

Shown with Contempo™ Independent Headrest.

2" (50.8 mm) longer than a standard ottoman extension.

Streamlined wood-to-the-floor power motion mechanism for less money

InNova[®] PM+™ is a NEW, innovative power motion mechanism that offers everything you come to expect from the world leader in motion furniture mechanism, as well as costing less money.

The InNova[®] PM+™ mechanism requires no manual parts and can support 158 kg (350 lbs.) effortlessly, while making the operation smoother and more responsive.

Patent-pending technology.

InNova PM+ is going to revolutionize the wood-to-the-floor power mechanism industry.

Power motion furniture has rapidly become the fastest-growing product sector in the furniture industry today, and Leggett & Platt is proud to present this latest product innovation to the market.

The InNova PM+ is designed with power only in mind. Eliminating unrequired manual parts from the mechanism allows the product to become more streamlined and more responsive in the open and closed functionality.

Attributes include:

- Effortless motion for easy operation by all ages
- Easy action to Full-Recline Position

Key Features & Benefits

- Power-only mechanism
- Faster-engaging response time compared to other wood-to-the-floor mechanisms*
- Tested at 158 kg (350 lbs.) weight capacity
- Accommodates leg heights of 50.8 mm (2-inch) – 152.4 mm (6-inch) while concealing the mechanism from view
- Flipper ottoman for high-leg applications allows for outstanding additional 2 inches (50.8 mm in CAD) of leg-rest extension support
- New compact power motor. No tools required to install motor
- Headrest options: Contempo™ Independent Headrest Perfecto™ Articulating Headrest

*Compared to previous and current InNova models.
